JEHAD KHALIFA QAJOUM

SOFTWARE ENGINEER & FULLSTACK DEVELOPER

gehad.ly

jeha710@gmail.com | (218) 910406699 | (218) 927104431 | Tripoli, LY

SUMMARY

Full-stack software engineer and building enterprise-grade mobile, web, and backend systems. Specialized in Flutter mobile development, Laravel backend architecture, and React web applications. Proven track record delivering complex solutions in FinTech, healthcare, and real-time IoT domains. Comfortable leading technical decisions, mentoring teams, and shipping production-ready software across the full stack.

WORK EXPERIENCE

Tech Team Lead
Oura — Jul 2026 – Present | Tripoli, Libya

- Leading the mobile development team, owning technical decisions, code reviews, and release planning across iOS and Android.
- Building and maintaining production Flutter applications with clean architecture, state management, and REST API integration.
- Mentoring developers and coordinating with backend and design teams on sprint-based delivery.

Software Engineer
Yaqeen Bank — Oct 2025 – Jul 2026 | Tripoli, Libya

- Developing and maintaining banking software solutions integrated with core banking systems, contributing to secure and scalable FinTech infrastructure.
- Implementing features with full Arabic RTL support, multi-language localization, and role-based access control (RBAC) for internal and customer-facing banking platforms.
- Collaborating with cross-functional teams on sprint-based delivery using clean architecture principles and Git workflows.

Odoo Developer
Mataa Co. — Aug 2025 – Oct 2025 | Tripoli, Libya

- Customized and extended Odoo ERP modules to meet business-specific workflows, including inventory, sales, and reporting pipelines.
- Developed custom Odoo addons using Python and XML, and integrated third-party REST APIs into the platform.

Category Manager
Presto Co. — Apr 2025 – Aug 2025 | Tripoli, Libya

- Managed product categories and supplier relationships, using data-driven insights to improve inventory performance and product availability.
- Leveraged technical background to build internal tracking tools and reporting dashboards supporting category decisions.

Customer Service Representative
Presto Co. — Aug 2024 – Apr 2025 | Tripoli, Libya

- Handled customer inquiries and resolved issues efficiently, maintaining high satisfaction rates in a fast-paced retail environment.

- Identified recurring pain points and proposed process improvements that streamlined team response times.

Full-Stack Software Engineer
Freelance — 2024 – Present | Tripoli, Libya

- Delivered end-to-end web and mobile solutions real-time tracking domains using Flutter, Laravel, and React.
- Built and deployed RESTful APIs, admin panels, and responsive UIs for enterprise and small business clients.
